What Do Brook Trout, Wheelchairs, Mud and a Classroom have in common?

They are all components of the Springville Field and Stream’s “Springville Community Trout Pond Renovation Project.”

The Springville Field and Stream Club has engaged the services and resources of Local, County, State and Federal agencies as well as private corporations, individuals and organizations to develop a three phase plan to:

- Eliminate invasive plants
- Improve water quality
- Dredge and renovate the pond
- Improve and create public wheelchair accessible fishing
- Restore and improve the fish habitat
- Rebuild the former on-site fish hatchery
- Add a new learning center for aqua-culture

This project will not only serve the recreational needs of the Springville community but it will also be available as a regional destination for environmental learning and assisting regional fisheries within the Cattaraugus and Eighteen Mile Creek watersheds.

WHO WE ARE

The Springville Field and Stream Club, Inc. and Green Springville, Inc. are two local organizations who promote sustainable conservation and recreation values within the community and the region surrounding the Town of Concord.

This unique partnership allows for the sharing of resources, volunteers, and project management. Most importantly, Green Springville, is an eligible 501C-3 Not-For-Profit partner which allows corporations, individuals and organizations to contribute to this project and utilize eligible tax deductions.

WHY ARE WE DOING THIS?

We are simply paying forward and reinstating the original purpose and vision of those before us....

- Preserve a historic asset
- Fishing for all ages and abilities
- Environmental education
- Family recreation
- Increase local Trout populations

PROJECT LOCATION

Located just north of the Village of Springville in the Town of Concord and situated along the east side of North Buffalo Street , the pond is easily visible and accessible from the road.
